MINISTER'S FOREWORD

I thank the staff for the dedication and hard work in producing this 2015 Corporate Plan. The Plan is important to the Ministry of Fisheries and Forests because it directs and

guides its resources and time towards discharging its mandated roles and responsibilities.

I am confident that this Plan will again raise the performance level of the Ministry. There is considerable commitment towards aligning the Ministry's key policy objectives and Outputs to the National Planning Documents and most importantly to the Government of the day's manifesto.

The Ministry will engage in smart partnership for effective and efficient service delivery and central to this, is securing the confidence of key partners that share similar goals in improving and advancing the wellbeing and governance of the fisheries and forest industries and communities. To this end, the Ministry of Fisheries and Forests is determined to implement the following key initiatives:-

1. Ensuring food security for the people of Fiji through various programs and activities that is implemented;
2. Greater collaboration and networking of all key stakeholders involved with Research;
3. Protection of our biodiversity through the establishment of national parks and reserves;
4. Community Empowerment through provision of appropriate training for SME's and identification of alternative livelihood schemes;
5. Streamlining of systems and processes to better service Fijians;
6. Empowerment of women to participate competitively in the market of fisheries and forest products;
7. Enhancement of Ministry staff to provide efficient and effective service delivery;
8. Reducing climate change impact; and
9. Provision of affordable housing to Fijians through our Pine Maritime Project,

The challenge is to keep striving for excellence and to deliver within given resources and timeframe. To accomplish these, it is imperative that we take full ownership of this Plan and that the fisheries and forest community also share its purpose and benefits with others for ensuring an enhanced and prosperous Fisheries and forest sector for the present and future generation.

Mr. Osea Naiqamu

Honorable Minister for Fisheries and Forests

PERMANENT SECRETARY'S STATEMENT

This Annual Corporate Plan highlights the key outputs that the Ministry of Fisheries and Forests is committed to deliver in 2015. The total commitment of staff in the planning process is a positive indication of acceptance and assurance that we have seriously considered the strategies for achieving our goals from a renewed perspective.

This Plan sets out the context of our core business and articulates the key strategies we intend to pursue in meeting these goals. It communicates our planned approach to all staff so that there is clear understanding and meaningful participation in moving the Ministry towards the right direction for 2015.

Furthermore, this important document retains the fundamental elements of our planning by focusing on our customers, service delivery, our staff and our core business performance. An extension of this Plan is the development of a annual Business Plans by each Division/Department of the Ministry and the Individual Work plan of each employee. The Business Plan contains greater specificity in presenting the objectives, strategies and initiatives to guide our progress for each year.

It is my fervent hope that the 2015 Corporate Plan will reach out to all our stakeholders and to the public at large to ensure that there is greater appreciation of our operational environment and the direction that we are taking for the year.

I look forward to meeting the objectives and strategies set out in this Plan.

Mr. Inoke Wainiqolo
Permanent Secretary for Fisheries and Forests

CORPORATE PROFILE

VISION

Our Future generation will inherit a prosperous and enhanced Fisheries and Forests Sector

MISSION STATEMENT

Improving Livelihood through SMART Policies on Sustainable Management of Fisheries and Forest Resources

VALUES

Our Values Are:

-
- Responsible :** We will discharge our duties with accountability
- Resolute :** We will discharge our duties with determination and be firm and fair in our decision making.
- Respectful :** We will be sensitive to individual needs and the diversity of viewpoints they represent
- Resourceful :** We will be practical, creative, effective and efficient and maintain uncompromising integrity in our daily work
- Reliable :** We will do and deliver what we have committed and promised to our customers

Our Customers

We take pride in serving our customers by implementing the 'Customer Service Charter' of the Ministry which sets out our commitment to providing high quality standards of services that is beyond customer expectations. Our customers include:

Expectations of Customers

Customers/Stakeholders	Their expectations
Resource Owners	Expects the sustainable use and safeguard of their resources be it natural, intellectual or cultural. Provision of information and advice on the social and financial opportunities for present and future generation
Industry (Business operators, and Industry association/councils)	Business Operators concerns are policies that safeguard and support their interests and operations e.g. tax concessions, incentives, and industry consultation. Creation of a conducive environment for vibrant trade.
Public/Consumers	The public concerns are for their safety and security in relation to information, quality standards and products and services underpinning.
Other Agencies	Facilitation of the implementation of their respective policies, strategies, plans and regulatory framework pertaining to their jurisdiction. These agencies include: NLTB, Fijian, Affairs, other Ministries, Research & Academic Institutions, Fiji Pine Limited, FTIB, NCSMED, FDB, Pacific Island Forum Fisheries Agency (FFA), Western and Central Pacific Fisheries Commission (WCPFC), Secretariat to the Pacific Community (SPC), UN Food and Agriculture Organization (FAO), IAS, FLMMA
NGO's	Access to information, funds and resources. Social and economic opportunities for better livelihood
Investors	The legislation, policies and efficient approval process for the development of products and business and a quick return on investment
MFF owners expectation – the Government	<p>Delivery of expected outcomes in the RDSSED 2010-2014</p> <p>Optimal return to investment</p> <p>Delivery of Outputs in the Budget Statement and in the ACP</p> <p>Sustainable growth in exports, foreign earnings and investment in new businesses</p> <p>Reduction in imports</p> <p>Improved job growth and employment through participation of the local people.</p> <p>Public Service Good governance as a vehicle for efficiency</p> <p>Equitable distribution of benefits and wealth</p>

FUNCTIONS - CONSTITUTIONAL/ LEGISLATED FUNCTIONS

ROLES OF THE DEPARTMENT AND VARIOUS DIVISIONS

The Ministry of Fisheries & Forest is a service organization, each responsible for portfolio leadership and policy initiatives for the conservation and sustainable management and development of the fisheries & forest resources and the industry they support. The Departments drive this through coordination, consultation and in partnership with resource owners, business and industry, private sector, government agencies, NGO's and international agencies.

We work in partnership with government departments, fishers, foresters and Industry partners to deliver policies and programs that improve their competitiveness, sustainability and self-reliance. Our work contributes to the well-being of rural and regional communities.

What We Do

- Formulation of fisheries and forest policies and strategies;
- Coordinate and facilitate the implementation of Fisheries & Forest strategies and policies (including private sector development and trade standards) in partnership with Government entities & the industry)
- Provide and administer the regulatory function under the respective Departments legislation, Forest Decree, Fisheries Act and part of the Marine Spaces Act)

How We Function

The Department of Fisheries & Forests executes the above functions through its Functional Divisions. There are a total of 43 stations nationwide—23 fisheries stations and 20 forestry stations.

The Department of Fisheries has 5 functional divisions namely: Tuna Management Services, Research and Development, Aquaculture, Extension & Advisory Services and Fleet and

Technical Services. These 5 functions are divisionalized into its four (4) operation centers - Central, Eastern, Southern and Northern Division.

Six (6) Functional Divisions

1 *Economic Planning, Policy, Statistics, IT and Trade*

The role of the Policy and Planning Section is formulation, evaluation, assessment, monitoring and review of the statutory development plan for the fisheries sector which sets out the policy framework for handling new development proposals. The responsibilities of the Section are Policy Research and Analysis, Planning, Statistics, Trade Facilitation and Project Monitoring & Evaluation.

2 *Resource Assessment and Product Development*

The role of the Resource Assessment and Product Development Section is for fisheries research and development. The responsibilities of the section includes: resource assessment, product development, gear technology, aquaculture research; formulation, establishment and implementation of quality management system; fisheries certification and establishment of code of practice and product standards and the implementation of Fisheries Research Development Plan.

Immigration laws. Further to carrying out referral duties, the Border Control Unit at HQ are also required to process appeals, PI uplift and update the controversial list.

In addition to referral duties, outer station offices also vet and receipt Passport applications, Citizenship applications and long term Work Permits applications before applications are sent to HQ for processing. Other Permits that are receipted, processed and issued are extension of visitors permit applications, visa applications, exemptions permit applications, short Term Permits applications, student permit applications, Investigations, Inspections and intelligence

work on Immigration related cases that is also carried out by these Offices. They are also required to compile and submit timely reports to HQ on a daily, monthly, quarterly, bi-annually and annual basis.

3 Offshore Fisheries Division

The role of the Offshore Fisheries Division is the administration and enforcement of the Offshore Fisheries Management Decree (2012), Offshore Fisheries Management Regulations (2014) and compliance to the convention on the Conservation and Management of Highly Migratory Fish Stocks in the Western and Central Pacific Ocean (WCPFC) and its adopted conservation and management measures relevant to Fiji. It is also responsible for the implementation of the TMDP (2014-2018) the NPOA IUU Fishing, the NPOA (Sharks – when it is endorsed), the Strategy on Fiji Fleet Operating in Areas Beyond National Jurisdictions and other offshore fisheries policies. The responsibilities of the section include: licensing, surveillance, enforcement, investigation, monitoring (observer placement both national and regional), data collection, data quality control, data analysis and data management. The Division also actively participates in the collection of biological samples whilst placed on fishing vessels that are sent to SPC in Noumea for scientific analysis

4 Fisheries Extension and Advisory Services

The role of the Extension and Advisory Service Section is the provision of technical advice and assistance to fishermen and fishing communities. The Division is responsible for the promotion of sustainable fisheries management, technology transfer, fisheries-based business development; facilitate development and implementation of community based initiatives for fisheries-based projects, provision of advisory services, training, communication and awareness; and the implementation of commodity plans and policies pertaining to the inshore and aquaculture sub sector. The section is also responsible for administration of the Fisheries Act (Cap 158) – Monitoring, Control and Surveillance on the fishery. This function is decentralized in the 4 divisions of Fisheries.

5 Aquaculture Development Services

The role of the section is the provision of technical advice and assistance to fish farming communities. The Section is also responsible for the promotion of sustainable fisheries management practice and best practices in the aquaculture subsector of Fisheries. It also facilitates the development

and implementation of training, community awareness and the implementation of Aquaculture Commodity Plans and policies.

The Department of Forest has eight (7) functional divisions namely Silviculture Research Division, Management Services, Timber Utilization, Forest Parks, Extension & Advisory Services, Timber Industry Training, Forestry Training, Mechanical Division and Forest Harvesting & MCS. Details of services provided can be obtained from the Office locations.

1 Forest Management Services Division

The role of the Management Services Division is the management of forest management information system (FMIS) and databank for planning and policy advice. Its responsibilities include resource inventory, resource assessment, administration of mapping and surveys of forest boundaries; forest functions and services; and coordination and facilitation of forest international and regional conventions and agreements.

2 Training and Education Division

The role of the Training and Education Division is to manage Human Resource Development and Planning of the Forestry Sector. The Division is responsible for the provision of training, skill development and capacity building; conducting training needs assessment and maintenance of qualified and skilled workforce.

3 Forest Research Division

The Forest Research Division's role is Silviculture research and is responsible for: quarantine and border protection and control; monitoring of the health status of forest resources, establishment of effective silvicultural (study, cultivation and management of forest trees) techniques, and research publications.

4 Timber Utilization Research & Product Development Division

The role of TUD is commodity and product development, marketing and market research. TUD is responsible for the research and investigation of wood properties, formulation, establishment and implementation of quality management system; forest certification and establishment of code of practice and product standards; administration of timber trade and administering timber processing and inspectoral

services

5 *Extension and Advisory Service Division*

The role of the Extension and Advisory Service Division is the provision of technical advice and assistance to forest dependent communities and stakeholders. The Division is responsible for the promotion of sustainable forest management, technology transfer, community-based forestry and business development, facilitating development of community based initiatives for forest based projects, provision of advisory services and raising awareness.

6 *Harvesting -Monitoring, Surveillance and Control Division*

The role of the Harvesting -Division is to administer the Fiji Forest Harvesting Code of Practice (FFHCOP) and the harvesting provisions of the Forest Decree 1992. The Division is responsible for the monitoring, surveillance, evaluation and control of all harvesting activities and logging operations; compliance to the standard requirements of the Forest Decree 1992 and the Fiji Forest Harvesting Code of Practice (FFHCOP); and facilitating sustainable log supply system for the timber industries. This function is divisionalised into Forestry West, North and Central & Eastern.

7 *Forest Parks, Recreation and Nature Reserve Division*

The role of the Division is to manage all forest parks, reserves, and recreation and conservation areas. The Division is responsible for the administration of leases and compensation payments, maintenance of boundaries; communication and awareness and monitoring and evaluation of all forest parks, reserves, recreation and conservation areas.

which is currently under Review. The subsequent regulations

Constitutional Powers And Functions Of The Permanent Secretary

Subject to Section 127 (3), (7) and (8) of the 2013 Constitution the Permanent Secretary has the following' functions-

- (a) responsible to the Minister concerned for the efficient, effective and economical management of the ministry or any department under the Ministry;
- (b) have the authority to appoint, remove and institute disciplinary action against all staff of the Commission with the agreement of the Prime Minister; and
- (c) has the authority to determine all matters pertaining to the employment of all staff of the Commission, with the agreement of the Prime Minister, including:
 - i. terms and conditions of employment;
 - ii. qualification requirements for appointment and the process to be followed for appointment which must be open, transparent and competitive selection based on merit;
 - iii. salaries, benefits and allowances payable in accordance with its approved budget; and
 - iv. Total establishment or the total number of staff that are required to be appointed in accordance with the approved budget

Statutory Functions

The Statutory functions of the Ministry are stipulated in the various legislation and regulation that we administer for ensuring that our fisheries and forest resources are sustainably managed for the present and future generation. The overarching legislation for Fisheries is the Fisheries Act (Cap 158) and the Offshore Fisheries Management Decree 2013. The supportive and subsequent regulations to enforce the provisions of the Fisheries Laws are the various regulations gazetted as legal notices.

As for Forests, the overarching law is the Forest Decree 1992

LEGISLATIVE FRAMEWORK

The Ministry of Fisheries and Forests is guided in its daily operations by the following legislations and regulations:

Legislative Framework

Legislation	Regulation	Related legislation & regulation
Fisheries Act (Cap 158)	Fisheries Regulation (in the various legal notices)	Environment Management Act 2005
Marine Spaces Act (Cap 158A)	Offshore Fisheries Management Regulation 2014	Endangered and Protected Species Act 2002
Offshore Fisheries Management Decree 78 2012	Fiji Sawmills regulations 1968	Fiji Pine Decree 1990
Forest Decree 1992	Fiji Preservative Treatment regulation 1990	Fiji Mahogany Trust Rules
Constitution of the Republic of Fiji 2013	Forest Guard Regulations 1975	Fiji Pine Trust Rules
Financial Administration Decree 2009	Forest Fire Prevention Regulation	Fiji Mahogany Decree 2010
Financial Instructions 2005	Fiji Forest Harvesting Code of Practice (2013)	Fiji Maritime Transport Decree
Financial Management Act 2005		Ship Registration Decree
Finance Manual 2010		ITaukei Lands Act
Fiji Procurement Act 2010		Surfing Decree
Occupational and Safety at Work Act 1996		

BUDGET PERFORMANCE OUTPUTS

The Ministry has a total of 23 Outputs where the Department of Fisheries and Forest has 11 Outputs and 12 Outputs respectively. The respective targets and strategies are formed to be implemented in the current year. The below table reflects these core Outputs and provides the linkage to the Ministry's Organizational Units which are responsible to implement these outputs.

Department of Fisheries

Output	Output Title
Output 1	Portfolio Leadership, Policy Advice and Secretarial Support
Output 2	Research and Development – Fisheries
Output 3	Education and Training – Basic Fisheries Management technique and options
Output 4	Public Awareness & promotion – Sustainable Fisheries Management
Output 5	Food Security and Income generation – Aquaculture and Inshore Fisheries development
Output 6	Fisheries Law Enforcement – Licensing, Compliance and Monitoring
Output 7	Sustainable Trade Environment – Fisheries
Output 8	Climate Change Adaptation and Resilience
Output 9	Strengthen Global, regional and National partnership – Fisheries Development
Output 10	Promote Gender Equality and Women in Development – Fisheries
Output 11	Financial Services – Fisheries

PRIORITY OUTCOMES – LINKAGE TO NATIONAL PRIORITIES

Amongst others, the Ministry's Annual Corporate Plan (ACP) is aligned to relevant outcomes identified in the Roadmap for Democracy and Sustainable Socio-Economic Development 2010-2014 (RDSSSED), the Government of the day's Manifesto, 2013 Constitution including the National Strategic Human Resource Plan 2011- 2015 (NSHRP). These are tabulated in the following tables

Priority Outcomes as in the RDSSSED, Government of the day's Manifesto and the 2013 Constitution

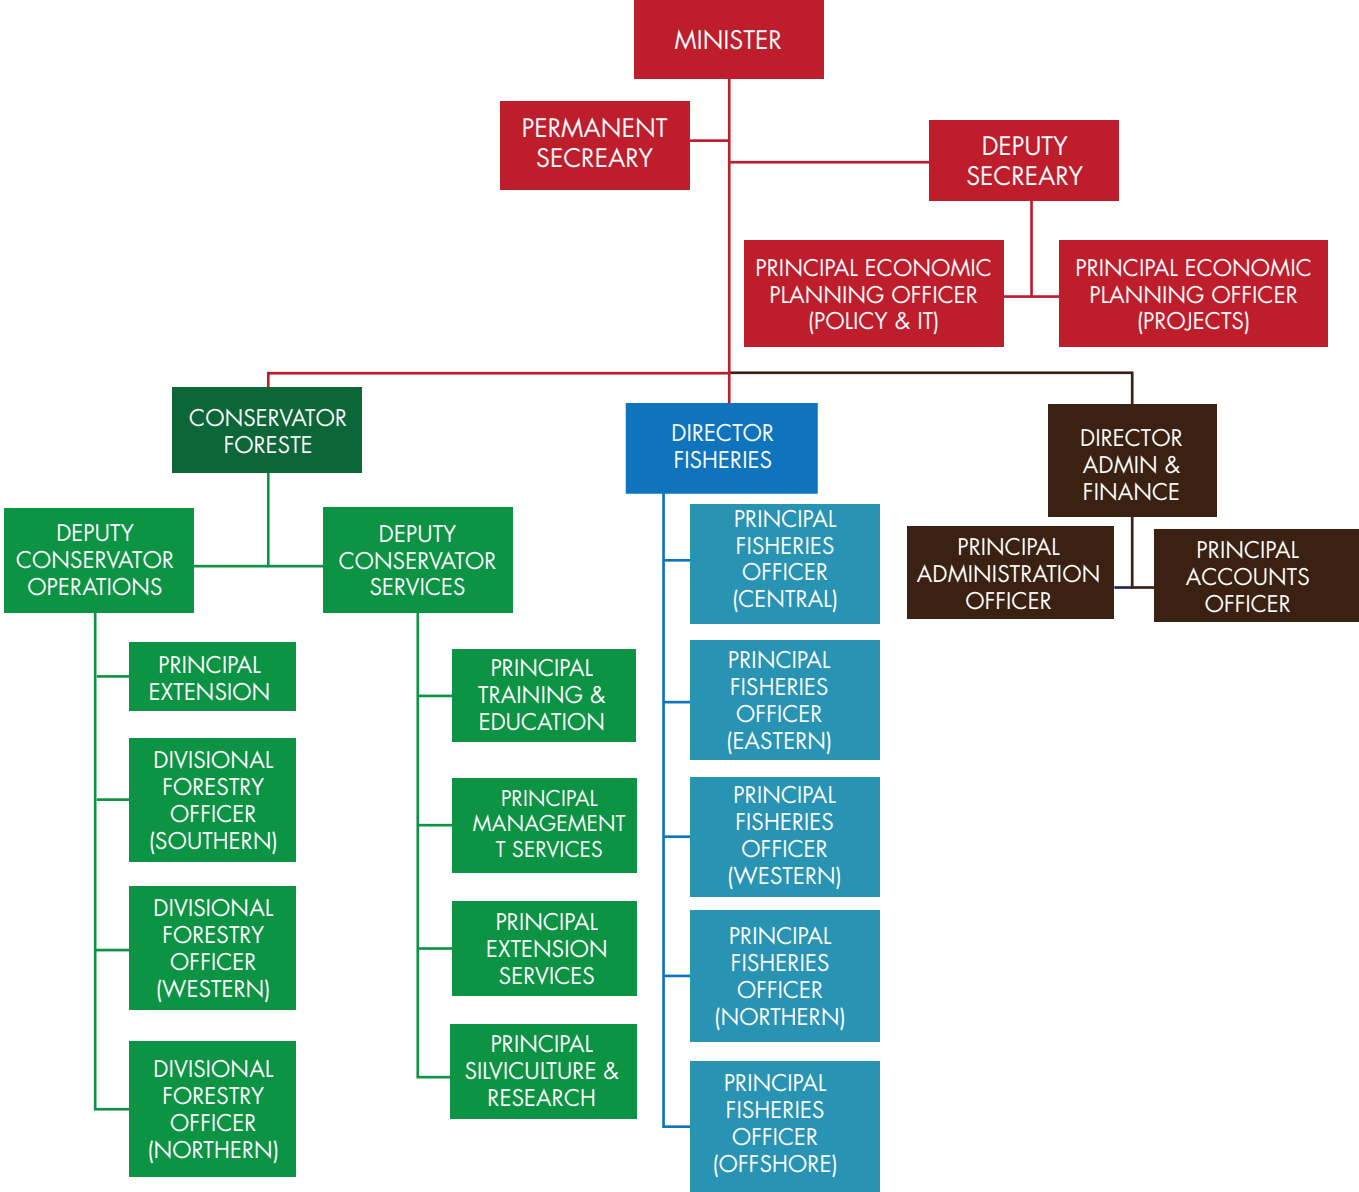

No.	Description
1	The Accountability Framework - Productive and transparent, democratic and accountable institution
2	Public Sector Reform - Improved Public Sector efficiency, effectiveness and service delivery.
3	Leadership -Effective, enlightened and accountable leadership
4	Employment & The Labor Market - Fullest and most productive utilization of human resources

The above key focus outcomes can be further translated into the table below:

In aligning the above to the Government of the Day's manifesto the following key areas apparently stood out:

1. Ensuring food security for the people of Fiji through various programs and activities that is implemented;
2. Greater collaboration and networking of all key stakeholders involved with Research;
3. Protection of our biodiversity through the establishment of national parks and reserves;
4. Community Empowerment through provision of appropriate training for SME's and identification of alternative livelihood schemes;
5. Streamlining of systems and processes to better service Fijians;
6. Empowerment of women to participate competitively in the market of fisheries and forest products;
7. Enhancement of Ministry staff to provide efficient and effective service delivery;
8. Reducing climate change impact; and
9. Provision of affordable housing to Fijians through our Pine Maritime Project,

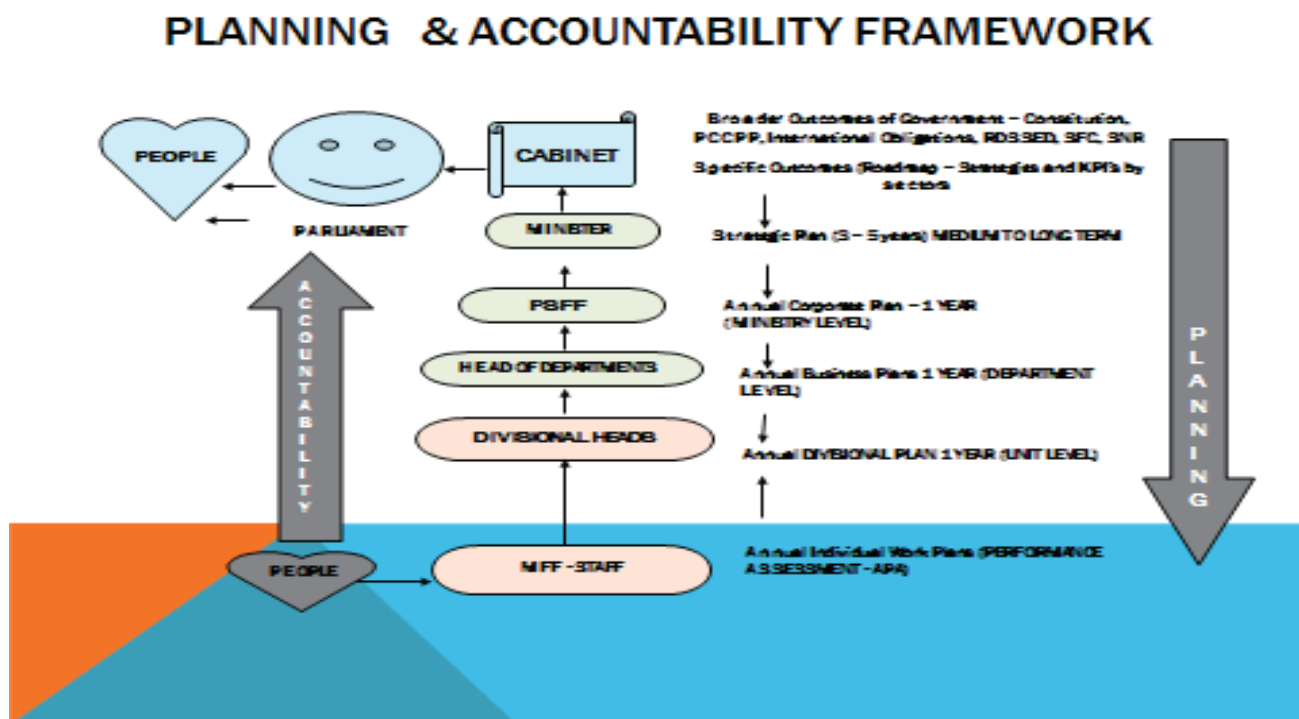

MANAGEMENT ORGANIZATION STRUCTURE

PLANS AND PLANNING PROCESS

The most important planning documents that are currently in existence are the Annual Corporate Plan, Departmental Business Plans, Divisional Unit Plans and IWP's that guide and set the directions for the Ministry's activities during the year.

The plans and planning process have taken into account the needs of our stakeholders, customers and the people of Fiji, Government of Fiji's President's Mandate, the Roadmap for Democracy and Sustainable Socio-Economic Development 2010-2014, the Government of the day's Manifesto, 2013 Constitution, National Strategic Human Resource Plan 2011-2015, Ministries of Finance and Strategic Planning & National Development and PSC Corporate Planning Requirements.

Over the years the Planning Process for the Ministry has improved and is more inclusive. Extensive Consultation with staff at divisional level was encouraged over the years to ensure ownership and ease of implementation. We have tested all approaches such as Top down, Bottom up Approach and Integrated Approach to development plans and have noted that an integrated approach of all the approaches identified is the best one to be adopted to ensure implementation and ownership of the plans from the implementers – the staff.

TABLE 3 PSC Deliverables and Indicators

Outcome/ Constitutional Powers	Strategies	Key Performance Indicators (Kpi)	Timeline	Responsible Division
Platform 1: Human Resources Management and Development				
Appointment and Discipline	Monitoring and Review of Policy implementation and compliance	<ul style="list-style-type: none"> •Policy Implementation •Agency Appointment Report 	Report submitted bi-annually Report submitted bi-annually	CSD
	Compliance with PSC Values and Code of Conduct	<ul style="list-style-type: none"> •Agency Disciplinary Report 	Report submitted bi-annually	CSD
Staff Development	Alignment of Organizational and People objective; Formulation, implementation, monitoring and review	Agency Strategic Workforce Plan – Review Agency Succession Plan -Review	2 Plans reviewed and submitted by 31st March 2015	CSD
	Effective HR Planning and Development	Implementation, monitoring and review report	Reports submitted bi-annually	CSD
	Agency Learning and Development Plan (LDP)	Revised LDP	Revised LDP by 31 January 2015	CSD
		Agency Training Policy	Due 31 January 2015	
		Agency Training Plan	Due 31 January 201	
Human Resource Management	Compilation and standardization of Human Resources Management Procedures	Review of Agency HR Manual	Manual reviewed by 31st March 2015	CSD
Terms and Conditions of Employment (TCE)	Report on changes in the TCE	No of policy developed in relation to TCE	Report submitted bi-annually	CSD
Salaries, benefits and allowances	Report on changes to salaries, benefits and allowances	No of policy developed in relation to salaries, benefits and allowances	Report submitted bi-annually	CSD
Staff Establishment	Report on the budgeted Staff Establishment	Staff Establishment Register (SER)	Submitted 31st January 2015	CSD
	Report on variation to Staff Establishment	SE variation Report	Report submitted bi-annually	CSD
Training and NTPC Levy Grant Compliance	Effective administration of Training activities in accordance with NTPC levy and Grant Scheme and Training Policy	Submission of Agency payroll updates for NTPC Levy Payment	List of 1st payment by 31 March 2015	
			List for 2nd payment by 30th September 2015	

Outcome/ Constitutional Powers	Strategies	Key Performance Indicators (Kpi)	Timeline	Responsible Division
Platform 1: Human Resources Management and Development				
Effective Planning & Accountability	Planning and Accountability Framework Compliance Formulation, implementation, monitoring and reviewing of: <ul style="list-style-type: none"> • SDP • ACP • PSC Deliverables • Agency 2014 Annual Report 	Strategic Dev. Plan		Planning
		Annual Corporate Plan	Implementation of ACP – 1 Jan 2015 2016 ACP draft – 30 Nov 2015	
		PSC Deliverables Report	Report submitted bi-annually	
		Draft un-audited 2014 Annual Report	Due March 2015	
		Agency 2014 Audited Annual Report on the	Due June 2015	
	Performance Review: <ul style="list-style-type: none"> • Implementation of Agency Performance Review Procedure 	Performance Review Procedure	Review Report submitted bi-annually	
Implementation of the Service Excellence Framework	Advancing towards best in class organizations through the adoption of business excellence principles	<ul style="list-style-type: none"> • Compilation of Agency Desktop Submission • Participation of Officers in the SEA Evaluation Process • Adoption of strategies for improvement 	<ul style="list-style-type: none"> • Desktop submission by 26th June 2015 • Evaluators released according to Agency quota • 40% of OFIs from Feedback Report attempted 	SEA Committee CSD
Adherence to Service Charter	Formulation, implementation, monitoring and reviewing of Agency Service Charter for improved service delivery against service standards	Agency Service Charter	Service Charter reviewed by 31st March (if necessary)	CSD Service Charter Committee
Effective Business Process Re-engineering	Documentation and review of business processes for improved performance substantially on key processes for consistent, high quality and cost effective services for customer satisfaction	i. Standard Operating Procedure ii. At least three (3) BPR implemented	Documentation of BPR processes by 31st March 2015 BPR implemented by 31 December 2015	CSD
Adherence to Service Level Agreements with ITC / GIRC	Strengthening of GIRC focal points and SLA compliance	i. Appointment of primary and secondary focal point	• Appointment by 31st March 2015	CSD
		ii. Compilation of SLA report	• SLA compliance report bi-annually	

TABLE 4 Capital Projects for the Year (2015)

SEG	PROJECTS	COST
8- Capital Construction	Makogai Mariculture Centre Development	\$200,000
	Pearl Oyster Research Development	\$200,000
	Marine Resource Inventory Survey	\$500,000
	Upgrading of Fisheries Infrastructure	\$400,000
	Coastal Fisheries Development	\$500,000
	Construction of Gau Ice Plant	\$600,000
	Biodiversity Enhancement	\$200,000
	Aquaculture Development	\$400,000
	Brackishwater Development	\$250,000
	Seaweed Development	\$200,000
	Establishment of Multi Species Hatchery	\$500,000
	Food Security Program – Aquaculture	\$300,000
	Rotuma Ice Plant	\$800,000
Total		\$5,050,000

SEG	PROJECTS	COST
8- Capital Construction	Reducing Emissions from Deforestation and Forest Degradation (REDD+)	\$300,000
	Sandalwood Development Program	\$100,000
	Upgrading of Office and Quarters - Forestry	\$500,000
	Research And Development of Non – Wood Species	\$150,000
	Reforestation of Degraded Forests	\$300,000
	Establishment of Permanent Sample Plots	\$100,000
	Utilization of Wood project	\$200,000
	Upgrading of CIS Park	\$150,000
9- Capital Purchases	Pine Woodlot Logging Package	\$500,000
Total		\$2,300,000
TOTAL 2015 MFF CAPITAL PROJECTS BUDGET		\$7,350,000

GLOSSARY

Outcome –impact/effect on the community from the goods and services delivered by agencies.

RDSSED – acronym for the Roadmap for Democracy and Sustainable Socio-Economic Development 2009-2014.

Output –services or goods provided to clients/customers external to the agency.

Internal Output –goods or services of one part of an agency delivered to other parts of the same agency. They contribute indirectly to the production of outputs.

Sub-output –a single output produced along the production process leading to the production/delivery of an output.

Output groups –a collection of outputs (including internal outputs) that are similar in nature.

Output performance measures –an assessment of characteristics of performance that illustrate that an agency has delivered its outputs. These measures relate to quantity, quality and timeliness.

Performance targets –numerical target levels of performance against which actual performance can be compared.
